

Dear Tamarind Plants,

What are you doing here?

How did you land on my window?

Where were you born?

Who picked you up?

Who brought you here?

How do you feel here?

Dear Stone Pine Tree Seed,

Why I brought you here?

Are you going to survive?

What are you dreaming of?

What are you missing?

Dear Figue Tree,

When did you leave your birthplace?

How many homes you had?

What you have been used for?

Where did you feel best?

What can make you happy?

Where will your last home be?

Dear Date Palm Tree,

Where was your seed born? Who picked it up? When was it?

How many homes you had? Where will your last home be?

Dear Avokado Tree,

Where was your seed born? Who picked it up? When was it?

How do you feel here? How long will you stay here?

Which skies do you dream for?

Dear Lemon Tree,

On what soil did your Parent-Tree bear you?

Do you remember the sun there, the wind?

Who picked the fruit which had the seed you sprouted from?

How long are you going to live?

How many places you will see?

Will you ever bear fruits on your own?

What do you need to grow and thrive?

Dear Fir Tree,

What have you seen here?

Do you remember the children whose lives ended here?

How could you grow on this blood soaked earth?
